Experience

03/2025 - Current

Senior Flutter App Developer (4 Months)

ASAR Gamming Network

- Engineered end-to-end fantasy game logic, including flexible team creation, user-driven match challenges, and real-time contest updates, ensuring high user engagement and interactive gameplay.
- Built and maintained a secure, high-performance in-app wallet system with custom payment gateway integration, enabling smooth transactions, promo code functionality, and accurate wallet balance management.

11/2023 - 02/2025

Flutter App Developer (1 Year & 4 Months)

Onviqa PVT LTD

- Collaborate with cross-functional teams to develop scalable Flutter apps with seamless API integration and responsive UI/UX. Ensure stability through optimized code, testing, and debugging, while managing deployments and post-launch support.
- Stay updated on the latest Flutter trends, best practices, and emerging technologies, and actively contribute to the continuous improvement of the development processes and codebase.

01/2023 - 10/2023

Senior Flutter App Developer (10 Months)

Rightq Infotech

- Mentored junior developers on best practices for code quality, scalability, and maintainability.
- Collaborate with cross-functional teams, including backend developers, to translate project requirements into elegant and efficient Flutter app solutions.

01/2022 - 01/2023

Flutter App Developer (1 Years)

ITFuturz

- Mentored junior developers on best practices for code quality, scalability, and maintainability.
- Collaborate with cross-functional teams, including backend developers, to translate project requirements into elegant and efficient Flutter app solutions.

Flutter Developer + Training (1.5 Years) Ignatiuslab Pvt Ltd.

- Learned C language, C++ language and Java language and did RND to learn Flutter code and started the project

Projects

GEMS (Gajera Charitable Trust)

App Store:- <https://apps.apple.com/in/app/gems-india/id1277555415>

Play Store:- <https://play.google.com/store/apps/details?id=com.dnk.gajeratrust>

- The GEMS project is a comprehensive educational app that enhances student learning and streamlines school management. It features Google Classroom integration, homework management, timetables, exam schedules, a diet plan, parent communication, event media, and a fees and results management system.

Real Motors

App Store:- <https://apps.apple.com/in/app/real-motors/id644439777>

Play Store:- https://play.google.com/store/apps/details?id=com.realmotor.itf&hl=en_US

- Led the development of Real Motor, implementing scalable APIs and Google Maps SDK for service tracking.
- Enhanced UI/UX using Flutter animations, improving user engagement by 25%.
- Integrated Firebase push notifications for real-time updates, increasing retention rate by 40%.

Real Motors Partner

Play Store:- https://play.google.com/store/apps/details?id=com.realmotorworkshop.itf&hl=en_US

- The Partner app allows users to send requests for car services, which are then picked up by the partner. After the service is completed, the partner creates a billing job. Once the job is created, the user receives the request and, after accepting it, the partner delivers the car back to the user.

Surat Jugaad Plus

App Store:- <https://apps.apple.com/in/app/surat-jugaad-plus/id1609665014>

Play Store:- <https://play.google.com/store/apps/details?id=com.reliablesolution.suratjugaadplus>

- Surat Jugaad is a business networking platform in Surat, connecting entrepreneurs for face-to-face interactions, growth opportunities, and collaborations. It also serves as a community for innovative solutions, stories, and connections within the city.

Rotaract Surat East

App Store:- <https://apps.apple.com/in/app/rotaract-surat-east/id1642693983>

Play Store:- https://play.google.com/store/apps/details?id=com.rotaract_app

- Rotaract Surat East is an organization dedicated to social, community, professional, and international projects. This app streamlines all Standard Operating Procedures (SOPs) of Rotaract, ensuring efficiency and transparency. It fosters collaboration, simplifies project management, and enhances member engagement for meaningful impact.

OPICXO

App Store:- <https://apps.apple.com/in/app/opicxo/id1501488794>

- OPICXO is a photography app that simplifies communication between studios and clients. Studios upload event photos into organized albums, share them via mobile numbers, and clients can view, select, and share images. The app also features a customizable slideshow, along with one-click download and sharing options.

Projects

Pipclass

- Built a stock market learning app with seamless YouTube API integration and in-app payments.
- Reduced video buffering time by 30% through optimized media caching.
- Integrated Firebase push notifications, increasing active users by 45%.

Trip Attendynt

App Store:- <https://apps.apple.com/in/app/tripattendynt/id6670303549665014>

Play Store:- <https://play.google.com/store/apps/details?id=com.trip.attendynt>

- Developed a travel assistant app, "Tripattendynt," enabling seamless trip management with features like airport pickups, curated sightseeing, and personalised shopping, enhancing user travel experiences.
- Implemented user-centric functionalities to provide stress-free and memorable journeys, integrating real-time updates and personalised assistance for a comprehensive travel companion solution

Ailtra - The AI-Powered Crypto Bot

App Store & Play Store :- Not Available

- Designed and developed Ailtra's cross-platform mobile app using Flutter, ensuring a seamless trading experience on Android and iOS.
- Integrated Binance API to enable automated long/short trading strategies based on the Martingale system, allowing asset management, portfolio monitoring, and efficient trade execution.
- Built and optimized interactive UI/UX components, including real-time earnings dashboards, market trends, order tracking, and referral management.
- Implemented secure authentication, push notifications, socket management, and alert systems for risk management and trade execution.
- Collaborated with the backend team to ensure stable API integration, improved system performance, and minimized order placement latency.

YourSay - Fantasy App

App Store:- Available soon

Play Store:- https://play.google.com/store/apps/details?id=com.yoursay.live&hl=en_IN

- Developed end-to-end fantasy match modules including custom team creation (11/6 players), player selection logic, and real-time points calculation.
- Implemented user challenge features allowing players to create private/public contests, invite friends, and accept challenges within a competitive ecosystem.
- Designed and integrated wallet management with secure Cashfree payment gateway for money withdrawal, add funds, promo code application, and transaction history.
- Built custom UI components and optimized app performance for smooth navigation, responsive design, and minimal load times across all screens.
